PROFILE DOORS FOR FIRE PROTECTION $EI_2$30

★ FIRERATING ★
$EI_2$30

3-765-

High-quality profile doors approved for 30 minutes fire protection according to EN-16034.

Our profile fire doors have a fire-resistant core, making them suitable for use in fire escapes, fire stairs and other fire compartmentalisation. The profile door system is flexible with many design options, and for fire protection you can choose between fire classes $EI_2$30 and $EI_2$60.

The doors are available as single or double doors with windows on all sides as required, and the doors can be customised to your design with paint finishes in all standard RAL colours, glazing bars, round windows or arch profiles.

3-765-	PROFILE DOORS FOR FIRE PROTECTION $EI_2$30
